Buyer understands and comprehends that they are committing to the life long care, 12 + years, of an intelligent and sensitive animal. Good diet (food and water), exercise, shelter, and good grooming are all a must for the well being and good health of the Standard Poodle breed and to which we require that the buyer agrees to having access to these resources.

Buyer initials:

Buyer agrees to contact the seller FIRST should life changes (financial, living conditions, personal or family hardships) ever require the rehoming of the puppy. The Seller will gladly welcome back any puppy, no questions asked, to rehome at any stage in the dog's lifetime. No puppy is given as a trial basis and for this reason if a puppy is placed back in the Seller's care there is NO REFUND, partial or full. It is the wish for the Seller and Miya's Designer Pups that a puppy of ours never falls into the hands of a unmoral breeder, animal shelter, rescue group, ASPCA, or ANY place that use euthanasia to handle surrendered animals.

Buyer initials:

Current Veterinarian "best practice" for spaying and neutering are to wait until the puppy is at least 12 months old to alter. This allows the puppy to fully develop, physically and more health conscientiously, with intact hormones. Buyer must agree to speak with a Veterinarian and make an informed decision with said Veterinarians guidance.

HEALTH GUARANTEE

Miya's Designer Pups, Guarantee this puppy is in good health, provided with age appropriate vaccinations and treated against intestinal parasites by a Veterinarian at their first check up visit at approximately 8 weeks of age. Your puppy from Miya's Designer Pups comes with a 1 Year HEALTH GUARANTEE that covers ONLY congenital health defects for a period of 1 year from the date of birth which is _____.

Miya's Designer Pups and seller are not responsible for any vet fees or charges once the puppy has left the property of Miya's Designer Pups. Presence of any type of parasite (worms, giardia, coccidia, etc) does not make a puppy defective, we do attempt to send our puppies home parasite free however no treatment is 100% effective.
